

May 12, 2015

[REDACTED]

Dear [REDACTED]

I would like to extend a personal invitation for you to visit Grote Industries on May 28, 2015, for a special event to celebrate manufacturing and highlight important public policy issues that help our business contribute to the local economy and to the prosperity and security of our nation.

As a leading member of the Association of Equipment Manufacturers (AEM) and strong supporter of its "I Make America" campaign, Grote Industries shares your concern about economic growth and your commitment to help Americans and Hoosiers to get back to work to strengthen our national economy. Our event on May 28, 2015 will feature an "I Make America" event celebrating the hard work and dedication Grote employees put forth every day to truly "make America." You'll have the opportunity to speak with many of our employees and see first-hand the great manufacturing taking place right here in Madison.

As one of our state's leading manufacturers, it would be Grote's honor to host you and introduce you to the men and women making some of America's most innovative and high-quality LED lighting and visibility product solutions used in construction, agriculture, commercial vehicle, and many other transportation sectors worldwide.

We hope you will be available to join us on May 28. Thank you for your consideration, and I look forward to seeing you.

Please RSVP to Sara Sontag (sara.sontag@grote.com) at 812.265.8875.

Sincerely,

Dominic Grote
President & CEO
Grote Industries
